When you are looking for a particular property it is difficult to find it and this is just one of them, a beautiful and rare property!

If you are dreaming of the house of your desires you can realize them by living this beautiful dwelling. "La Dimora" is a villa in a beautiful location, the finishes are exceptionally sought after and every space has been studied to make the most of its potential.

Amplitude and brightness are the main features; through a wide gate you have access to a large space, partly bewitched as a parking space and the other as a garden where you can let your children play with their little furry animals; here dominates a pergola under which it will be great to spend in the company of friends the warm summer evenings.

It is spread over three levels; on the ground floor the living room with parquet flooring and a wood-burning fireplace that in addition to emitting a regenerating warmth on cold winter evenings, gives the rooms a touch of charm and elegance, further on a living area with kitchen and dining room, in the sleeping area there are two bedrooms and a bathroom.

An external staircase leads to the first floor where we immediately find a small veranda overlooking the sea where in warmer periods you can have breakfast enjoying the view.

Entering a large marble-paved living room gives a feeling of elegance and comfort unique and rare, to follow we have 3 large bright bedrooms, one with balcony, two bathrooms of which one with shower stall and a service bathroom. The living area consists of a large kitchen with balcony where you can admire the outside of the garden.

Upstairs there is an attic to be finished with a partly wooden roof that in the future can be used as an area to be put to income or in any case for any other need.
